We are across Europe

Austria	Luxembourg
Belgium	Malta
Croatia	Netherlands
Czech Republic	Norway
Denmark	Poland
Estonia	Portugal
Finland	Romania
France	Russian Federation
Germany	Slovenia
Great Britain	Slovakia
Hungary	Spain
Italy	Sweden
Latvia	Switzerland
Lithuania	

- 1. Information and intelligence
- 2. Media and dogma's/prejudices
- 3. Procedures and standards
- 4. Protection and prevention
- 5. Over-medicalisation

- 6. Financiële and funding
- 7. Staffing
- 8. Discrimination and human rights
- 9. Technology and ICT
- 10. Housing, logistics and service models

- Care versus cure
- Shortage PPE versus safe labour conditions
- Individual freedom versus collective protection
- Safety versus well-being

- Communication
- Concept of good health must include physical, mental, spiritual and social aspects
- Co-production and better cooperation
- Better production and management of stock PPE etc.
- Better finance and funding
- Much more attention for labour force
- Bigger role for technology
- Future housing more pandemic-proof

- Experience with COVID-19 is wake-up call for labour market care
- Elderly care sector is important and must be treated as such
- Cooperation between all parts of health sector
- Other parts of government policy, like housing and Public Space, are necessary for a more effective pandemic-policy

Thank you
