Operational Grant of EVBB 2022

Motivation of VETn'Go

There is a need for a holistic, EU-wide understanding and implementation of EU Policies to:

Enhance coordination among educational institutions

Create synergies among the EU policies on socio-economic policies and green transitions

Boost dissemination and future-oriented reforms in the field of education and training

Change the inflexible character of training systems, promote inclusion and enhance the adaptability of training processes to different context

Operational Grant of EVBB 2022

Motivation of VETn'Go

EVBB has decided to exploit its *outreach policy making capacity* to further diffuse the *New Strategic Framework for European Cooperation in Education*, and **promote policy transfer, and learning activities**, across its extensive membership

Operational Grant of EVBB 2022

Objectives

VETn'Go sets out to:

Increase the capacity building and engagement of less experienced VET institutions in the implementation of EU Policies and Priorities on Education and Training

Diffuse the vision of the European Education Area across multiple educational providers through the fostering of cooperation and communication loops among transnational and geographically diverse VET institutions

Raise awareness among VET learners about the EU Semester framework

Maximize the impact and outreach of the project to enhance the image of VET and promote the new strategic framework for European cooperation in education
